Dear [REDACTED]

We hope to be able to come back in Scotland.... we are afraid of this "delta variant"... but previously, can you deliver the usual Bird licence for my goshawk.

I join the références of the bird and our the travel, the scan of the CITES, and the scan of the owner certificate ( IFAP)

Can you confirm that the right vet form is the GBH CO27E ( regulation 139/2013) version apr2021?

I hope these informations are enough

Sincerely yours

Dear [REDACTED]

We are not aware of any changes from a licensing point of view but you will need to confirm the travel arrangements required for the bird in exiting the EU zone in your country. I can't see any reason why we wouldn't provide a licence as per previous years if you had fulfilled the necessary transportation requirements between the EU and Scotland.

Once you have these details confirmed we would need a copy of your CITIES certificate and the details of your visit.

Hi,

After one year without Scotland, we plan to come in august with our dog and our Goshawk as every year since.... 25 years.

It seems that, with this bloody brexit, rules have changed...

Can you enlighten me? As usual, we would come by the ferry from Zeebrugges to Hull, and then go to [REDACTED] to practice hawking during five weeks.

Thank you!
